In this 20 Hour program we will explore the benefits of aerial yoga, cover basic anatomy, safety, 50+ poses and how to put them together to create flows. A training manual is also included for your reference. This course will allow plenty of practice time as well as practice teaching time to help each participant feel comfortable teaching an aerial yoga class. After the training weekend is completed each participant will be required to complete an additional 20 hours of observing and/or assisting an aerial yoga class. It is each participants responsibility to set up those times with a qualified teacher.

Upon completion of those hours the participant will be awarded their Aerial Yoga Teaching certificate! After you have received your certificate we will continue to support you and your efforts in your Aerial Yoga teaching journey!
